The Registrar
Dhanamanjuri University, Manipur

Subject: Request for the purchase of 30 computer units, refurbishment of the current computer lab, another computer lab for the Mathematics Department

Madam,

We, the Students' Forum for Mathematics of DMU, extend our heartfelt gratitude for the arrangement of three guest lecturers which will greatly reduce the stress on the faculty of the Department of Mathematics, DM College of Sciences.

We would also like to bring to your attention a matter we had previously discussed. On August 23, 2022, during a meeting with the hon'ble Vice – Chancellor by the then students of UG 3rd semester (currently in 5th semester) Mathematics Honours, he kindly assured us that out of the 10 computer units we had requested at that time, 5 units would be delivered to us within 7 days, by August 30, 2022. Regrettably, we have not yet received these units as of the current date, which is October 9, 2023. On October, the forum also submitted another application to the Registrar of DMU requesting the purchase of 30 computer units.

Currently, the computer lab has only 8 working computers while there are more than 120 students in the UG 3rd semester with practical needs. Therefore, we kindly urge you to expedite the procurement and delivery of the 30 computer units within 7 days, by October 16, 2023, lest the students' studies be hindered.

The lab also has a leaking roof which has not been fixed for more than 2 years. At most, the laboratory can hold only around 15 computer units and thus, we would also like to request another computer lab and the renovation of the current laboratory.

We eagerly await your response to our requests and hope that they will be granted.

Thanking You

Copy to:
